NOTE: We recommend the use of Loctite® or other threadlock compound when assembling parts on your motorcycle.

1. Remove stock seat.
2. Install the Corbin bracket (#A01133) onto your motorcycle, re-using the stock seat bolts, as shown in *Figure 1*.

NOTE: Leave the bolts a little loose until after you secure the saddle onto the mounting bracket, then go back and tighten all four bolts.

3. Slip the front tongue of the saddle into the base of the gas tank (*Figure 2*). Lower the back end and secure with the supplied hex head bolts and flat washers (*Figure 3*), using a 10mm socket wrench.
