

MOUNTING SUGGESTIONS:

Can-Am Spyder F3 2015-2018 One-piece Seat

Hardware: *none*

Tools needed: Ignition key
10mm socket wrench or nutdriver

Removal of stock seat:

1. Insert the ignition key into the ignition on the tank, push in firmly, and turn clockwise to release the rear latch.
2. Slide the passenger seat back and carefully lift from the motorcycle. Remove the clip attached to the bottom of the passenger seat. This can either be removed from the motorcycle or tucked into the frame. It is not used to mount the Mustang seat.
3. Remove the tool pouch from the passenger seat's elastic straps.

4. Using a 10mm socket wrench, remove the two 6mm x 20mm bolts from under the back of the solo seat. These are not used to mount the Mustang seat.

5. Lift the solo seat up and back to remove it from the motorcycle.

Installation of Mustang seat:

1. Transfer the tool kit from the stock seat to the Mustang seat.

2. Insert the front tab of the Mustang seat into the mount behind the fuel tank.

3. Lower the seat onto the rear fender, align the pin with the latch on the fender, and press down firmly until a click is heard, signifying the seat is latched. Ensure this connection is secure before riding the motorcycle.

Enjoy the comfort and custom look of your new Mustang seat!

These steps are guidelines to help you install your new Mustang product. If you need further assistance, please call us at 800-243-1392 or 413-668-1100, Monday through Friday 9:00 - 5:30 Eastern or send an e-mail to questions@mustangseats.com or visit our website at www.mustangseats.com.
