

# NEW RAGE CYCLES

## INSTALLATION INSTRUCTIONS

### HONDA CB300R

#### FENDER ELIMINATOR

- 1 Remove seat and unplug main connector. (Picture 1)
- 2 Remove (4) bolts with a 5mm allen key and slide off stock tail section. (Picture 2)
- 3 Open up stock tail section, unplug barrel connectors and remove entire harness. You will be plugging back into the connector you unplugged in step 1 and into new connections on your new kit. (Pictures 3/4)
- 4 Mount NRC license plate to turn signal bracket with M6x10 bolts and star nuts.

# NEW RAGE CYCLES

## INSTALLATION INSTRUCTIONS

### FENDER ELIMINATOR

- 5 Take fender eliminator and mount onto bike with provided black spacers and M6x25 bolts. (Picture 5)
- 6 Plug barrel connectors back into removed harness (left signal, right signal, plate light) and test everything. (Picture 6)
- 7 Zip tie harness and tuck under seat. (Picture 7)
