ACCESSORIES

Inner bag

Everything in its place. With this inner bag, nothing scatters around the top case.
The top case is easier to load, because the inner bag can be packed ahead of time. At the end of the ride, there's no need to remove the whole top case and carry it away – just the inner bag.
The bag is made of hard-wearing black fabric. Equipped with a base plate, a 2-way zipper and an adjustable carrying strap, everything stays neat, even during unpacking.

ACCESSORIES

Backrest

A backrest on the top case keeps your passenger comfortable even on long trips.

Made of soft black polyurethane and designed for optimal shock absorpion.

Item-no. 700308

Railing

The ideal addition.

This rail lets you transport still more things you need on your trip (a sleeping bag, air mattress, etc.). The rail screws easily on to the top case. This requires holes to be drilled in the top case's lid. But don't worry – after the rail is installed, the top case is still 100 percent watertight.

The rail is made precisely for the shape of each top case out of steel tubing and protected with a black plastic coating.
