ACCESSORIES

Inner bag

Everything in its place. With this inner bag, nothing scatters around the top case.

The top case is easier to load, because the inner bag can be packed ahead of time. At the end of the ride, there's no need to remove the whole top case and carry it away – just the inner bag.

The bag is made of hard-wearing black fabric.

Equipped with a base plate, a 2-way zipper and an adjustable carrying strap, everything stays neat, even during unpacking.
